
PLAN MAP

The illustration on the following page presents an overview of the major concepts developed through the community planning process. Through this device, it is possible to see how each of these ideas contributes to the design of the total fabric of the Navajo community.

It is the intent of this community plan that all public facilities illustrated on the Plan map be provided commensurate with the need for such facilities. In some cases, the exact location for such facilities has not yet been determined. The final site selection of these facilities will be accomplished during the subdivision map filing process. City policy requires that subdivision maps be reviewed by all public agencies that may have an interest in the proposal. If through this process it is determined that a specific parcel of land within the subdivision is needed for public facility purposes, the parcel in question will be withheld from development for a reasonable period of time to allow the appropriate agency time for property acquisition. It is also intended that in the event the public agency does not arrange for the acquisition of the needed property within a reasonable period of time, private development of the property may occur as consistent with the Plan goals and objectives. Such private development shall conform to Council Policies 600-4 (standards for public rights-of-way improvements), 600-10 (adequate public services in connection with development proposals), 600-18 (residential/commercial/industrial developments phasing), or any other present or future policy of the City of San Diego that may be effective at the time of future development proposals.

Future Study Area

A City-owned parcel adjacent to Pasatiempo Avenue, consisting of ten acres of relatively level land, has been set aside for additional study. This property has been designated as FUTURE STUDY AREA to permit studies to be undertaken to determine an appropriate permanent use.
